
kvats with multiple SIP accounts

Posted by ras - 2008/11/13 22:18

kvats currently can be connected to only one SIP account currently.

If you need to handle several accounts simultaneously, then have a look at MySIPswitch <http://www.mysipswitch.com/>. They even offer call forward between your SIP accounts. The service is offered for free and can handle in- and outgoing calls to and from various SIP providers to your kvats client.

He who shouts the loudest has the floor. He who wow gold walks in another's tracks leaves no footprints. Hindsight is wow gold kaufen an exact science. History is the science of what rift plat never happens twice. History repeats itself. That is one buy runescape gold of the things wrong with history. I dis You rift platinum would find that such accounts are now being sold runescape gold and transacted like normal commodities. If you are shopping rift items for a World of Warcraft account, it would be runescape gold for sale better if you would first do a comparison shop rs gold or scout and analyze the market for such gaming accounts. There is definitely an appropriate and optimal World of Warcraft account that is available to suit your every WoW gaming needs. Many WoW accounts for sale are aimed at satisfying the needs, demands and preferences of different types of WoW players.
