## Wer kann beim Build für Apple OS X unterstützen?

Posted by ras - 2008/05/16 21:01

---

Die Anleitung zum Kompilieren für Ubuntu ist in diesem Forum.

Anleitung für Mac OS Kompilation ist bei den Kollegen von Qutecom:  
<http://trac.qutecom.org/wiki/HowToBuildFromSource>

Man muss offenbar vorher installieren

```
# A C++ compiler
# (http://www.cmake.org/) >= 2.4.4.
# (http://www.trolltech.com/download/opensource.html) >= 4.2 with support
for STL, exceptions and RTTI.
# (http://www.boost.org/)
# (http://www.gnu.org/software/gnutls/) >= 1.2.9
# (http://www.gtk.org/) >= 2.10.3
```

Wahrscheinlich kanns man das meiste über MacPort (unterstützt auch Tiger) installieren, das sieht ziemlich einfach aus, wenn man sich mal MacPort geholt hat. OpenSSL ist auf OS X normalerweise schon drauf.

Wer traut sich drüber?

During late spring one year, a blonde was trying out her new wow gold boat. She was unable to have her boat perform, travel through cheap runescape gold water, or do any maneuvers whatsoever no matter how hard she rift platinum tried. After trying for over three days to make it work rift gold properly, shethree guys are drinking in a bar when a drunk world of warcraft gold comes in, staggers up to them, and points at the guy oro wow in the middle, shouting, "your mom's the best lay in town!" buy wow gold everyone expects a fight, but the guy ignores him, and the wow cheap gold drunk wanders off and bellies up to the bar at the ffxiv gil far end. ten minutes later, the drunk comes back, points at the same guy, and says, "i just screwed your mom, and it was sweet!" again the guy refuses to take the bait, and the drunk goes back to the far end of the bar. ten minutes later, he comes back and announces, "your mom liked it!" finally the guy interrupts. "go home, dad,... you're drunk!"
