
Statusübertragung unklar?

Hello,

wenn ich meinen Status am kvats client ändere, dann dürfte der "A1 Communicator" das scheinbar nicht richtig mitbekommen, denn neben "Online", werden auch "Away" und "Do not disturb" am "A1 Communicator" als "Online" angezeigt.

Liegt die Ursache des Missverständnisses auf seiten kvats oder dem counterpath bria, der ja die Basis für den "A1 Communicator" darstellt?

Allerdings scheint es umgekehrt auch nicht zu funktionieren, denn bis auf "Offline" wird nichts brauchbares übertragen.

Woran liegt es?

BR
Walter
